

STAMPERS' SHOWCASE USER'S GUIDE

Stampers' Showcase is an exciting and useful tool where you can get great project ideas from your fellow demonstrators. We've designed it with several search options to help you find the types of projects you're looking for. You'll be amazed and inspired by the creativity of demonstrators just like you!

Stamp Sets

This option lists projects by stamp sets and Stampin' Around wheels. It's a wonderful way to quickly find projects that use the stamps you own or plan to demonstrate at an upcoming workshop. Keep in mind that even if a project uses just one stamp from the set, we've still listed that stamp set in the supplies for that project. For example, even if you use only one of the flowers from the Heartfelt Thanks set, we will include this set in the supplies.

Featured Items

The featured items page highlights a certain stamp set, style, or technique. We change samples on this page regularly to help acquaint you with new stamp sets or different techniques. You'll also find these showcased projects listed by their respective posting dates and stamp sets.

Search

The search option is a great way to find projects by technique, occasion or theme. For example, if you want to see projects that use the bleaching technique, just type "bleach" or "bleaching," and your search will bring up projects that use this particular technique. Below are just a few of the techniques you can search by:

- Bleaching
- Collage
- Colorbook
- Embossing
- Monochromatic
- Poppin' pastels
- Stamping with a twist
- Scrapbook/Scrapbooking
- Watercolor

In addition, you can also search by occasion or theme. Here are a few ideas:

- Boys
- Kids
- Halloween
- Thanksgiving
- Christmas
- Thank you
- Masculine
- Valentines Day
- Wedding

Since the search option searches for word matches anywhere in the project's supplies and comments, sometimes your searches may not be very precise. For better search results, you can try other forms of the word or synonyms of your original search. For example, if you're looking for cards for men it's best to search using words like "masculine" or "manly." The reason for this is a search for the word "men" displays a number of nonmasculine projects because the letters "men" are found in other products, like "Stampin' DiMENsionals."

Calendar/Posting Date

When you first enter Stampers' Showcase, today's projects will appear. If you would like to view projects posted on past dates, simply click on the dates on the calendar.

Project Submission

Many demonstrators have asked how they can submit projects to be considered for posting on Stampers' Showcase. We currently only accept projects through contest entries or from swaps we receive at Stampin' Up! events--such as regional seminars, leadership conference, cruise, and our annual convention. We look forward to seeing your submissions!
