

My Digital Studio Shipping Policy

Stampin' Up! works with an external print supplier to fulfill orders placed for My Digital Studio's professional print services. As such, printed items are shipped directly from the print supplier, and not from Stampin' Up!'s regular distribution center. If an order consists of only professionally printed products (excluding cards), standard Stampin' Up! shipping charges are applied. Shipping costs for cards are dependent on the number of cards ordered and are defined in the Card Shipping Cost scale below. If an order consists of both printed and traditional products, a small split shipping fee will be assessed, as packages will be shipped from two different locations to fulfill the order.

Expedited shipping is not available in Canada. Print products cannot be shipped to Quebec.
