FYI

To use, iron the adhesive onto your fabric, cut the fabric, peel off transfer sheet, and then iron the fabric die cut onto your project. See the insert that comes with the product for detailed instructions.

Big Shot for Stampin' Up!, Dies

Features & Benefits

- Use to quickly and easily create die-cut or embossed shapes, envelopes, tags, and baskets
- Great for cards, scrapbook pages, home décor, and more
- Cut a variety of materials

Bigz Dies

- New dies: Candy Wrapper, Scallop Squares Duo, and Tasteful Trim
- Candy Wrapper Bigz L
 - Ideal for treats, table decorations, and more
 - Folded box measures approximately 2" x 1-3/8" x 1-3/8" (not including the ends)
 - Approximate die size: 6" x 8-3/4"
 - Use with Standard or Extended Cutting Pads
 - For best results, use with Standard Premium or Extended Premium Crease Pads and cut only one layer of material at a time
- Scallop Squares Duo Bigz
 - Creates scalloped squares in two sizes
 - Great for creating frames, journaling blocks, and accents
 - Large scalloped square: 3" x 3"; small scalloped square: 1-11/16" x 1-11/16"
 - Approximate die size: 5-1/2" x 6"
 - Layer the two squares for added dimension
 - Coordinates with the Scallop Square Bigz Clear die and the Scallop Square punch
 - Use with Standard Cutting Pads
- Tasteful Trim Bigz XL
 - Creates a variety of die-cut pieces to use as borders, frames, and accents
 - Layer images for added dimension
 - Great for fabric projects
 - Approximate die size: 6" x 13-3/4"
 - Approximate image dimensions: scallop edge: 12" x 3/4"; wavy edge: 12" x 1-5/8"; double scallop edge: 12" x 1/2"; zigzag edge: 12" x 3/8"
 - Use with Extended Cutting Pads

Decorative Strip Die

- New die: Northern Frost
- Approximate die size: 2-3/8" x 12-5/8"
- Use with Decorative Strip Spacer Platform and Decorative Strip Cutting Pads

- Use with Multipurpose Platform and Standard Cutting Pads

Letterpress Plates

- Add elegant inked, debossed look to paper
- Available in 4 designs:
 - Trick or Treat, approximate die size: 8" x 5-7/8" x 1/4"
 - Lots of Love, approximate die size: 8" x 5-7/8" x 1/4"
 - Joyful Season, approximate die size: 8" x 3" x 1/4"
 - Northern Trim, approximate die size: 8" x 3" x 1/4"
- Use with Multipurpose Platform and Standard Cutting Pad
- For best results, use a standard cutting pad that is as unused as possible
- Works best with Craft Stampin' Ink and porous paper, such as watercolor paper or textured card stock
- Apply ink using Craft Stampin' Pad, Craft Stampin' Spots, Brayer, or Sponge Daubers
- Instructions included

Upsell Opportunity

Big Shot, Standard Replacement Cutting Pads, Brayer, Watercolor Paper, Craft Stampin' Ink, Doctor's Bag, Big Shot Die Storage, Big Shot Multipurpose Adhesive Sheets, Big Shot Fabric Adhesive Roll, Card Stock, Designer Series Paper, Rub-Ons, Uninked Craft Stampin' Pad, Designer Fabric

FYI

When using Bigz dies that have score marks, perforations, or lots of details, we recommend that you cut just one piece of paper at a time. Use the Premium Crease Pad with dies that have score marks for best results.

Steel-ruled dies (Bigz dies) have sharp edges—handle with care.

When cutting intricately-detailed images, paper (or other material) may become caught in the die. Remove carefully to prevent ripping.

Not all materials will work well with some designs. Experiment a bit with your dies and materials to make sure you get the cutting results you want.

Brads, Glimmer

Features & Benefits

- Add sparkle to holiday projects
- Approximately 3/8" diameter
- Each set includes 40 brads, 8 each in 5 colors
- Available in four color collections
 - Basics: Basic Black, Basic Gray, Champagne, Gold, and Silver

Décor Elements Applicator Tool

FYI

Décor Elements images work well on the following surfaces:

- Smooth, nontextured, drywall painted with matte or glossy paint
- Other smooth, nontextured surfaces, such as glass or metal
- Smooth, nontextured wallpaper
- Flat, smooth, finished wood surfaces, such as paneling or doors

Because finishing and construction processes vary, all wall surfaces are different. We cannot guarantee that this product will work as intended on every wall.

We do not recommend that you apply Décor Elements images to the following surfaces:

- Textured or uneven surfaces
- Brick
- Oil-based surfaces

This product may affect the paint on some surfaces and wall coverings.

For best results, work carefully and slowly with the images.

The image is easier to apply when it's at room temperature.

Do not touch the sticky side of the image, and make sure the sticky side of the image does not fold in on itself.

To clean, use a mild soap or detergent and wipe dry.

Carefully measure and mark where you want the image. You can remove the image once, but it cannot be reapplied after you have removed it from the surface.

If your wall has been recently painted, make sure the paint has been dry for at least 5 days.

Before Applying the Image

1. Make sure the wall or surface you want to apply the image to is clean and has been washed, rinsed, and dried. (You can use a mild household cleaner.)
2. Determine where you want the image.
 - a. Measure the space to ensure your design will fit.
 - b. Temporarily tape the entire sheet to the wall (painter's tape works best). Adjust the sheet so the image is where you want it.
 - c. Lightly mark where the center of your image will be (on the wall and on the transfer sheet), along with small marks on the top corners (mark the top and the side). Remove the sheet from the wall.

To Apply the Image

1. Lay the sheet on a flat surface, with the backing sheet grid-side up.
2. Lightly rub the entire surface with a Décor Elements applicator tool. This will transfer the image from the backing sheet to the transfer sheet.
3. Carefully and slowly peel the backing sheet off, working from one side to the other. Peel the backing sheet back at an angle. As you peel the backing sheet off, make sure the image is transferring to the transfer sheet. If any part of the image does not transfer, carefully replace the backing sheet over the image and rub until the image has completely adhered to the transfer sheet. This can take a few tries. The more detailed the image, the more time-consuming this process can be.
4. Gently place the image on the transfer sheet within the marked corners on your surface and line up the center markings. Be careful not to touch the sticky side of the image or let the image fold over and stick to itself.
5. Working with the applicator tool, rub the image onto the wall. Starting at the center, rub from top to bottom, working outward.
6. Carefully and slowly, peel the transfer sheet off the image, pulling straight back at an angle. Make sure that your image has transferred to the wall before continuing; the image can rip if it is not totally transferred. If any part of the image did not transfer, carefully replace the transfer sheet over the image and rub until the image has completely adhered to the wall. If bubbles appear, work them out starting at the center and then moving them outward.
7. After the image has been transferred to your wall, you can smooth the image with your hand.

- Use entire flourish or smaller portions

Upsell Opportunity

Card Stock, Designer Series Paper, Hodgepodge Hardware, Simply Adorned Charms, Design-a-House, Pearl Basic Jewels, Rhinestone Basic Jewels

FYI

To apply the jewels in the design, you first need to transfer them to the transfer sheet.

1. Carefully remove the clear transfer sheet from its backing sheet.
2. Place the clear transfer sheet sticky side down on top of the jewels.
3. Firmly press the transfer sheet onto the jewels.
4. Turn the sheet of jewels over so the backing sheet of the jewels is facing up and the jewels and transfer sheet are facing down. Slowly remove the backing sheet from the jewels. If the jewels do not adhere to the transfer sheet, carefully remove them with your finger and adhere them to the transfer sheet.
5. When entire jewel design is on the transfer sheet, apply the jewels to your project. Firmly press down on the jewels and slowly remove the transfer sheet.

- 6" x 6"
- Coordinates with Candy Cane Christmas Designer Series Paper
- Coordinates with Baja Breeze, Blushing Bride, Garden Green, Real Red, and Whisper White

Quick Trick

For a quick gift tag, add a Candy Cane Rub-On to card stock, punch out, and attach using ribbon.

Upsell Opportunity

Card Stock, Designer Series Paper, Hodgepodge Hardware, Design-a-House, Mini Lunch Sacks, Punches

FYI

For best results, cut out your Rub-On image and remove it from the backing sheet. Place the image on a flat surface, and rub it lightly with your finger to hold it in place. Then firmly rub the image with the wooden stick (included with the Rub-Ons) to transfer it to your project.

You'll know the image has transferred completely when the image becomes lighter on the transfer sheet. Pull up slowly on the transfer sheet, being careful not to slide it. If the image hasn't transferred completely, simply lay the sheet back down and try again.

You can apply Rub-Ons over stamped images. However, make sure that the image has been stamped in Craft Ink; Rub-Ons don't adhere well to Classic Ink.

If you want to transfer Rub-On images to a small embellishment such as a button, you may want to transfer the image to the embellishment before you adhere the embellishment to your project. Stick the embellishment to a smooth surface, such as a cellophane bag, using SNAIL Adhesive. Trim the image from the Rub-On sheet and lay it over your embellishment. Rub your finger over the image to help hold it in place, then transfer the image completely using the wooden stick. Peel the embellishment off the bag and adhere it to your project.

You can remove Rub-Ons from most surfaces with our Adhesive Remover.

Make sure you store your Rub-Ons with the paper backing or your images will come off where you don't want them to!

If you need to clean the item the Rub-On is adhered to, wipe it gently with a damp cloth.
